Trusted you in every way
Believed your every word
Shut my eyes to the darker side
Of your life and the things I heard
Loved the way you loved me
I was caught up in your net
I may forgive you honey
But I never can forget
But I never can forget

The way you lied to me
The way you didn't care
The way you left me lonely
None of it was fair

So don't take advantage of my kiss
Don't think it comes for free
Best not to take a risk now babe
Don't throw away the key
I'm lovin' but I am no fool
I'm here, in love and yet
I may forgive you honey
But I never can forget
But I never can forget
